## Answer

### Hilary Clinton

She is a lady who is a climber of former US President Bill Clinton. She dreams of White House during day time and spends night with nightmares of her own scandals.

#### Bad Styles

**Dressing sense** - She mostly likes to be in Pant suits with long jackets. This showcases her manly attitude in her dressing sense. The Pant suits which used to spice up her adolescent age are now also her favorite professional attire making her "wonderfully outrageous." It seems the 68 year old lady is in no mood to come out of the cute 16 world.

She has no color sense and can wear any color on any occasion. It seems as if only in USA, she has the guts to wear yellow and green color dress in any business meetings. She even wears golden color dress matching with her golden color hair. Her dressing sense only changes her appearance and she looks like a bulging out humpy dumpy old woman.

**Hairstyle**- She has not changed her hair style for ages together. It seems she prefers short hair because she can save money by only cutting it for maximum 2 times in a year. Afterall, she is Mrs. Clinton. May be, she has dandruff issues or hair loss problem for which she is bound to be in the short hair club.

**Lack of Feminism**- Short hair, weird and funky smiles are the inborn habits of Mrs. Clinton. To add on to it, waving off hands in a manly style to address the public speaks a lot about her deterioration in feminine character. She thinks taking selfie with youth would allow her to capture the youth vote, but unfortunately time and wrinkles on her face talk differently. Regarding her smile, Dinosaurs are now extinct but we can still see and imagine Dinosaur's smile within Hilary's open-mouthed laughs.

**No Make-up** – Very less make-up on face but lips covered with blood red color lipsticks all the time irrespective of any occasion has compelled many to compare her with a vampire – a vampire in Cost-Cutting mode. I think at this point, she wants to attract Donald Trump with her natural no-make up beauty.

Conclusion – As her name suggests, she will be a hilarious stuff for many for years together to come.
